The accompanying Notes to Consolidated Financial Statements are an integral part of these statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The consolidated financial statements for International Specialty Holdings Inc. and its consolidated subsidiaries (the "Company") reflect, in the opinion of management, all adjustments necessary to present fairly the financial position of the Company and its consolidated subsidiaries at September 29, 2002, and the results of operations and cash flows for the third quarter and nine months ended September 30, 2001 and September 29, 2002. All adjustments are of a normal recurring nature. These consolidated financial statements should be read in conjunction with the annual consolidated financial statements and notes thereto included in the Company's Registration Statement on Form S-4, Registration No. 333-82822 (the "Form S-4").

NOTE 1. RETIREMENT OF DEBT

On January 14, 2002, the Company's parent company, International Specialty Products Inc. ("ISP") redeemed the remaining \$307.9 million aggregate principal amount of its 9% Senior Notes due 2003 (the "2003 Notes"). The 2003 Notes were redeemed at a redemption price of 101.5% of the principal amount plus accrued and unpaid interest to the redemption date. As a result, the Company recorded an extraordinary loss on the early retirement of debt of \$4.7 million (\$7.1 million before income tax benefit of \$2.4 million). The extraordinary charge was comprised of \$4.6 million of call premium, \$0.2 million of remaining discount amortization and the write-off of \$2.3 million of unamortized deferred financing fees. The redemption was funded utilizing a restricted cash escrow account which had been established in 2001 in connection with the issuances of long-term debt.

NOTE 2. RECENT ACCOUNTING DEVELOPMENT

On June 30, 2001, the FASB issued SFAS No. 142, "Goodwill and Other Intangible Assets". With the adoption of SFAS No. 142, goodwill is no longer subject to amortization over its estimated useful life. However, goodwill will be subject to at least an annual assessment for impairment and more frequently if circumstances indicate a possible impairment. Companies must perform a fair-value-based goodwill impairment test. In addition, under SFAS No. 142, an acquired intangible asset should be separately recognized if the benefit of the intangible is obtained through contractual or other legal rights, or if the intangible asset can be sold, transferred, licensed, rented, or exchanged. Intangible assets will be amortized over their useful lives. The Company adopted SFAS No. 142 effective as of January 1, 2002. Accordingly, the Company completed a transitional impairment test, effective January 1, 2002, and recognized a goodwill impairment loss of \$155.4 million as the cumulative effect of a change in accounting principle. The Statement of Operations for the first quarter of 2002 has been restated to reflect this loss. The write-off represents the goodwill associated with the Company's Performance Chemicals, Fine Chemicals and Industrial business segment and was based upon the Company's estimate of fair value for these businesses, considering expected future cash flows and profitability. The Company intends to complete its annual test for impairment by the end of the year 2002.

INTERNATIONAL SPECIALTY HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (CONTINUED)

NOTE 2. RECENT ACCOUNTING DEVELOPMENT - (CONTINUED)

Following is a reconciliation showing "Income (loss) before extraordinary item and cumulative effect of accounting change" and "Net income (loss)," as reported for the third quarters and nine months ended September 30, 2001 and September 29, 2002, and as adjusted to exclude amortization of goodwill.

	Third Quarter Ended		Nine Months Ended

Add back: goodwill amortization.....	4,010	-	12,031	-

Net income (loss), as adjusted.....	\$ 1,795	\$ 8,346	\$35,490	\$ (115,763)
	=====			

NOTE 3. GAIN ON SALE OF ASSETS

In April 2002, the Company sold its Haifa, Israel-based FineTech, Ltd. business to Pharmaceutical Resources, Inc. ("PRI") for \$32 million. The Company recorded a second quarter pre-tax gain, after expenses, of \$5.5 million related to this transaction. Also see Note 4.

NOTE 4. GAINS ON SETTLEMENT OF CONTRACTS

In December 2001, ISP entered into a letter agreement to sell its pharmaceutical fine chemicals business, including its Haifa, Israel-based FineTech Ltd. business and its Columbus, Ohio manufacturing facility to PRI. In February 2002, the Company received a \$250,000 payment from PRI in consideration of extending the negotiations pursuant to the letter agreement. In March 2002, the Company announced that the sale would not be consummated due to the failure of PRI to proceed with the transaction in a timely manner. Under the terms of the letter agreement, the Company received a \$3.0 million break-up fee. Accordingly, the Company recognized a first quarter 2002 pre-tax gain of \$2.8 million, representing the total

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (CONTINUED)

NOTE 4. GAINS ON SETTLEMENT OF CONTRACTS - (CONTINUED)

cash received in February and March of \$3.25 million less related expenses of \$0.4 million.

In the second quarter of 2002, the Company received \$4.0 million in settlement of a manufacturing and supply contract with a customer of the Fine Chemicals business. After related expenses, a pre-tax gain of \$3.9 million was recognized.

NOTE 5. INVESTMENT INCOME (LOSS)

Investment income (loss) for the third quarter and first nine months of 2002 reflects a \$39.0 million other than temporary impairment charge related to an available-for-sale equity security held in the Company's investment portfolio. The Company regularly reviews investment securities for impairment based on criteria that includes the length of time and the extent to which cost exceeds market value.

NOTE 6. ACQUISITION

In April 2002, the Company acquired the roofing granules manufacturing operations in Ione, California of Reed Minerals, a division of Harsco Corporation. In a related transaction, the Company also acquired the adjacent quarry operations and certain mining assets from Hanson Aggregates Mid-Pacific, Inc. The total purchase price of the acquisitions was \$11.4 million.

	=====	=====	=====	=====

(1) Net sales and operating income for the third quarter and the first nine months of 2001 for the three Specialty Chemicals business segments have been restated to conform to the 2002 presentation. In 2002, the Company realigned its Alginates business based on the markets for its products. Sales and operating income for the Alginates business are now included in the Personal Care, Pharmaceutical, Food and Performance Chemicals businesses. Prior to 2001, the sales and operating income of the Alginates business represented the Food business of the Pharmaceutical, Food and Beverage business segment.

(2) Includes sales to Building Materials Corporation of America, an affiliate, and its subsidiaries, of \$18.7 and \$19.1 million for the third quarter of 2001 and 2002, respectively, and \$50.5 and \$57.9 million for the first nine months of 2001 and 2002, respectively.

(3) Operating income for the Performance Chemicals, Fine Chemicals and Industrial business segment for the first nine months of 2002 includes a gain of \$5.5 million from the sale of the FineTech business (see Note 3) and a \$3.9 million gain from the settlement of a manufacturing and supply contract (see Note 4). For the first nine months of 2002, operating income for the Performance Chemicals, Fine Chemicals and Industrial business segment also includes a gain of \$2.8 million from the termination of a contract related to the sale of the FineTech business (see Note 4).

INTERNATIONAL SPECIALTY HOLDINGS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (CONTINUED)

NOTE 9. HEDGING AND DERIVATIVES

In June 2001, ISP Chemco Inc., a wholly owned subsidiary of the Company, entered into \$450.0 million of Senior Credit Facilities, which include a \$225.0 million term loan. The Company designated interest rate swaps, with a notional amount of \$100 million, as a hedge of its exposure to changes in the eurodollar rate under the term loan. The interest rate swaps are structured to receive interest based on the eurodollar rate and pay interest on a fixed rate basis. A cash flow hedging relationship was established whereby the interest rate swaps hedged the risk of changes in the eurodollar rate related to borrowings against the term loan through July 2002. These swaps matured in June and July of 2002. During the first nine months of 2002, \$1.9 million related to the interest rate swaps was reclassified and charged against interest expense.

NOTE 10. INVENTORIES

Inventories comprise the following:

	December 31, 2001	September 29, 2002
	-----	-----
	(Thousands)	
Finished goods.....	\$120,797	\$110,739
Work-in-process.....	36,960	31,943
Raw materials and supplies....	32,825	34,902
	-----	-----
Inventories.....	\$190,582	\$177,584
	=====	=====

At December 31, 2001 and September 29, 2002, \$60.1 and \$61.6 million, respectively, of domestic inventories were valued using the LIFO method. If the FIFO inventory method had been used for these inventories, the value of inventories would have been \$3.7 and \$2.1 million higher at December 31, 2001 and September 29, 2002, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (CONTINUED)

NOTE 11. CONTINGENCIES

Environmental Litigation

The Company, together with other companies, is a party to a variety of proceedings and lawsuits involving environmental matters ("Environmental Claims") under the Comprehensive Environmental Response Compensation and Liability Act, Resource Conservation and Recovery Act and similar state laws, in which recovery is sought for the cost of cleanup of contaminated sites or remedial obligations are imposed, a number of which Environmental Claims are in the early stages or have been dormant for protracted periods.

While the Company cannot predict whether adverse decisions or events can occur in the future, in the opinion of the Company's management, the resolution of the Environmental Claims should not be material to the business, liquidity, results of operations, cash flows or financial position of the Company. However, adverse decisions or events, particularly as to increases in remedial costs, discovery of new contamination, assertion of natural resource damages, and the liability and the financial responsibility of the Company's insurers and of the other parties involved at each site and their insurers, could cause the Company to increase its estimate of its liability in respect of those matters. It is not currently possible to estimate the amount or range of any additional liability.

For further information regarding environmental matters, reference is made to Note 21 to Consolidated Financial Statements contained in the Form S-4.

Tax Claim Against G-I Holdings Inc.

The Company and certain of its subsidiaries were members of a consolidated group for Federal income tax purposes that included G-I Holdings Inc., (the "G-I Holdings Group") in certain prior years and, accordingly, would be severally liable for any tax liability of the G-I Holdings Group in respect of those prior years. Effective as of January 1, 1997, neither the Company nor any of its subsidiaries are members of the G-I Holdings Group. In January 2001, G-I Holdings filed a voluntary petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code due to its asbestos-related bodily injury claims relating to the inhalation of asbestos fiber.

On September 15, 1997, G-I Holdings received a notice from the Internal Revenue Service (the "IRS") of a deficiency in the amount of \$84.4 million (after taking into account the use of net operating losses and foreign tax credits otherwise available for use in later years) in connection with the formation in 1990 of Rhone-Poulenc Surfactants and Specialties, L.P. (the "surfactants partnership"), a partnership in which G-I Holdings held an interest. G-I Holdings has advised the Company that it believes that it will prevail in the tax matter arising out of the surfactants partnership, although there can be no assurance in this

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (CONTINUED)

NOTE 11. CONTINGENCIES - (CONTINUED)

regard. The Company believes that the ultimate disposition of this matter will not have a material adverse effect on its business, financial position or results of operations. On September 21, 2001, the IRS filed a proof of claim with respect to such deficiency against G-I Holdings in the G-I Holdings bankruptcy. On May 7, 2002, G-I Holdings filed an objection to that proof of claim. On July 13, 2002, the IRS filed a motion with the U.S. District Court for a withdrawal of the reference to the bankruptcy court of G-I Holdings' objection to the proof of claim, which motion remains pending. If such proof of claim is sustained, the Company and/or some of the Company's subsidiaries, together with G-I Holdings and several current and former subsidiaries of G-I Holdings, would be severally liable for such taxes and interest in the amount of approximately \$250.0 million should G-I Holdings be unable to satisfy such liability. For additional information relating to G-I Holdings, reference is made to Notes 10, 18 and 21 to Consolidated Financial Statements contained in the Form S-4.

NOTE 12. NEW ACCOUNTING PRONOUNCEMENTS

In August 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 143 establishes accounting and reporting standards for legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and the normal operation of a long-lived asset. SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred. Upon initial recognition of such liability, an entity must capitalize the asset retirement cost by increasing the carrying amount of the related long-lived asset and subsequently depreciating the asset retirement cost over the useful life of the related asset. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002, although earlier application is encouraged. The Company is in the process of assessing the impact of this Statement on its financial statements.

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." SFAS No. 145 eliminates the requirement of SFAS No. 4 that gains and losses on the early extinguishments of debt be recorded as an extraordinary item unless such gains and losses meet the criteria of APB No. 30 for classification as extraordinary. The rescission of SFAS No. 4 is effective for fiscal years beginning after May 15, 2002, although early application is encouraged. The Company intends to adopt SFAS No. 145 effective January 1, 2003, which will result in the Company's first quarter 2002 pre-tax loss of \$7.1 million on the early extinguishment of debt being reclassified to other expense, net.

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." SFAS No. 146 addresses financial accounting and reporting for costs associated with exit or

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (CONTINUED)

NOTE 12. NEW ACCOUNTING PRONOUNCEMENTS - (CONTINUED)

disposal activities and supercedes Emerging Issues Task Force Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)." SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred, and concludes that an entity's commitment to an exit plan does not by itself create a present obligation that meets the definition of a liability. This Statement also establishes that fair value is the objective of initial measurement of the liability. SFAS No. 146 is effective for exit or disposal activities that are initiated after December 31, 2002, with early application encouraged. The Company is in the process of assessing the impact of this Statement on its financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Unless otherwise indicated by the context, "we," "us" and "our" refer to International Specialty Holdings Inc. and its consolidated subsidiaries.

CRITICAL ACCOUNTING POLICIES

The preparation of our financial statements in conformity with accounting principles generally accepted in the United States requires our management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses, and related disclosure of contingent liabilities. On an on-going basis, we evaluate our estimates, including but not limited to those related to doubtful accounts, inventory valuation, investments, environmental liabilities, goodwill and intangible assets, pensions and other postemployment benefits, and contingent liabilities. We base our estimates on historical experience adjusted for current conditions, and on various other assumptions that are believed to be reasonable under the current circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. We do not anticipate any changes in management estimates that would have a material impact on our operations, liquidity or capital resources. We believe the following critical accounting policies are the most important to the portrayal of our financial condition and results of operations and require our management's more significant judgments and estimates in the preparation of our consolidated financial statements.

Allowance for Doubtful Accounts

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. Management continuously assesses the financial condition of our customers and the markets in which these customers participate. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Inventories

Inventories are valued at the lower of cost or market. The LIFO (last-in, first-out) method is utilized to determine cost for substantially all domestic acetylene-based finished goods and work-in-process and the raw materials to produce these products. All other inventories are valued on the FIFO (first-in, first out) method. We write down our inventories for estimated obsolescence or unmarketable inventories equal to the difference between the cost of inventories and their estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

Short-Term Investments

Our investment strategy is to seek returns in excess of money market rates on our available cash while minimizing market risks. There can be no assurance that we will be successful in implementing such a strategy. We invest primarily in international and domestic arbitrage and securities of companies involved in acquisition or reorganization transactions. From time to time, we invest in securities of companies that we consider undervalued. With respect to our equity positions, we are exposed to the risk of market loss.

Our short-term investments are reported at fair value. For securities classified as "trading" (including short positions), unrealized gains and losses are reflected in the results of operations. For securities classified as "available-for-sale," unrealized gains and losses, net of income tax effect, are included in a separate component of shareholder's equity, "Accumulated other comprehensive income (loss)." The determination of cost in computing realized and unrealized gains and losses is based on the specific identification method. We periodically review available-for-sale securities for other than temporary impairment when the cost basis of a security exceeds the market value. Declines in the value of these investments or adverse changes in market conditions could result in impairment charges in the future.

Goodwill and Other Intangibles

Through December 31, 2001, we amortized goodwill and certain other intangible assets on a straight-line basis over the expected useful lives of the underlying assets. In accordance with the provisions of Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets," effective January 1, 2002, goodwill is no longer being amortized over its estimated useful life, but rather will be subject to at least an annual assessment for impairment and more frequently if circumstances indicate a possible impairment. We adopted SFAS No. 142 on January 1, 2002. Accordingly, we completed a transitional impairment test, effective January 1, 2002, and recognized a goodwill impairment loss of \$155.4 million as the cumulative effect of a change in accounting principle. The write-off represents the goodwill associated with our Performance Chemicals, Fine Chemicals and Industrial business segment. We use both a market comparable approach and income approach to determine the fair value of our reporting units. We will perform our annual test for impairment before the end of the year 2002.

Other intangible assets will be amortized over their useful lives. The useful life of an intangible asset is based on management's assumptions regarding the expected use of the asset and other assumptions. If events or circumstances indicate that the life of an intangible asset has changed, it could result in higher future amortization charges or recognition of an impairment loss.

Environmental Liability

We accrue environmental costs when it is probable that we have incurred a liability and the expected amount can be reasonably estimated.

The amount accrued reflects our assumptions about remedial requirements at the contaminated site, the nature of the remedy, the outcome of discussions with regulatory agencies and other potential responsible parties at multi-party sites, and the number and financial viability of other potentially responsible parties. Adverse decisions or events, particularly as to increases in remedial costs, discovery of new contamination, assertion of natural resource damages, plans for development of our Linden, New Jersey property, and the liability and the financial responsibility of our insurers and of the other parties involved at each site and their insurers, could cause us to increase our estimate of liability in respect of those matters. It is not currently possible to estimate the amount or range of any additional liability.

Pension and Other Postemployment Benefits

We maintain defined benefit plans that provide eligible employees with retirement benefits. In addition, while we generally do not provide postretirement medical and life insurance benefits, we subsidize such benefits for certain employees and certain retirees. The costs and obligations related to these benefits reflect our assumptions related to general economic conditions (particularly interest rates), expected return on plan assets, and rate of compensation increases for employees. Projected health care benefits additionally reflect our assumptions about health care cost trends. The cost of providing plan benefits also depends on demographic assumptions including retirements, mortality, turnover, and plan participation. If actual experience differs from these assumptions, the cost of providing these benefits could increase or decrease.

RESULTS OF OPERATIONS - THIRD QUARTER 2002 COMPARED WITH

THIRD QUARTER 2001

We recorded third quarter 2002 net income of \$8.3 million compared with a net loss of \$2.2 million in the third quarter of 2001. Third quarter 2001 results reflected \$4.0 million of goodwill amortization. Net income for the third quarter of 2001, adjusted to exclude the goodwill amortization, was \$1.8 million. On a comparable basis, the improved results for the third quarter of 2002 reflected \$8.4 million higher investment income, \$5.0 million lower interest expense and \$1.0 million higher operating income, partially offset by \$2.9 million increased other expense, net.

Net sales for the third quarter of 2002 were \$208.4 million compared with \$188.6 million for the same period in 2001. The 10.5% increase in sales resulted primarily from the contribution to sales from the biocides business (\$7.9 million), which was acquired on December 31, 2001, higher unit volumes in the Personal Care, Pharmaceutical, Performance Chemicals and Industrial businesses (totaling \$13.4 million), and the favorable impact of the weaker U.S. dollar in Europe (\$4.4 million). Lower pricing in the Industrial and Personal Care businesses (totaling \$4.7 million) partially offset the sales gains.

Gross margins for the third quarter of 2002 were 36.6% compared with 39.1% in the third quarter of 2001. The decline in margins resulted primarily from a reduction in the Fine Chemicals business

due to the Polaroid bankruptcy and price declines in the Industrial business.

Operating income for the third quarter of 2002 was \$35.7 million compared with \$30.7 million for the third quarter of 2001. Excluding the \$4.0 million of goodwill amortization in the third quarter of 2001, operating income was \$34.7 million for the third quarter of 2001. On a comparable basis, operating income in the Personal Care business was up \$3.0 million mainly due to higher volumes, while in the Pharmaceutical, Food and Beverage business, operating income increased \$3.5 million primarily due to improved volumes and mix in pharmaceutical products. Operating income was lower in Performance Chemicals, Fine Chemicals and Industrial, as strength in Performance Chemicals (up \$3.9 million), which includes the additional profit contribution from the biocides business, did not offset unfavorable pricing and higher manufacturing costs in Industrial (totaling \$5.8 million) and lower volumes in Fine Chemicals (\$7.0 million). Operating income for the Mineral Products business decreased by \$0.3 million on 3% higher sales due to increased manufacturing costs. Selling, general and administrative expenses for the third quarter of 2002 increased 4% to \$40.5 million from \$39.1 million in the same period last year, primarily due to the biocides acquisition and to higher selling and distribution costs, but those expenses as a percentage of sales were 19.4% compared with 20.7% in last year's third quarter.

Interest expense for the third quarter of 2002 was \$20.6 million versus \$25.6 million for the same period last year. The 20% decrease was due to lower average borrowings. Investment income in the third quarter of 2002 was \$1.4 million compared with investment losses of \$7.0 million in the same period last year. Investment income for the third quarter of 2002 reflects a \$39.0 million impairment charge related to an available-for-sale equity security held in our investment portfolio. Other expense, net, for the third quarter of 2002 was \$4.4 million compared with \$1.5 million in last year's third quarter, with the increased expense due to unfavorable foreign exchange.

Business Segment Review

A discussion of operating results for each of our business segments follows. We operate our Specialty Chemicals business through three reportable business segments, in addition to the Mineral Products segment. Each business segment was favorably impacted in the third quarter of 2002 by the absence of goodwill amortization. The business segment discussion that follows excludes the impact of goodwill amortization on third quarter 2001 results. Goodwill amortization in the third quarter of 2001 by business segment was as follows:

	(Millions)
Personal Care	\$1.2
Pharmaceutical, Food and Beverage	1.0
Performance Chemicals, Fine Chemicals and Industrial	1.0
Mineral Products	0.8

Personal Care

Sales in the third quarter of 2002 were \$51.0 million compared with \$45.5 million for the same period last year, while operating income for the third quarter of 2002 increased to \$10.0 million from \$7.0 million in last year's third quarter. The 12% increase in sales resulted from higher unit volumes in both hair care and skin care products (\$5.2 million), mainly in North America and Europe, and also as a result of the favorable impact of the weaker U.S. dollar in Europe (\$1.2 million). The higher operating income resulted from the favorable volumes (\$3.7 million), the favorable impact of the weaker dollar (\$0.9 million) and \$1.0 million lower operating expenses, partially offset by unfavorable manufacturing costs (\$1.8 million).

Pharmaceutical, Food and Beverage

Sales for the Pharmaceutical, Food and Beverage segment were \$62.3 million for the third quarter of 2002 compared with \$57.8 million for the third quarter of 2001. The 8% sales growth reflected higher unit volumes (\$3.1 million), primarily in the pharmaceutical excipients market in North America and Asia, and also reflected the favorable impact of the weaker U.S. dollar in Europe (\$1.4 million).

Operating income for the Pharmaceutical, Food and Beverage segment was \$17.0 million in the third quarter of 2002 compared with \$13.5 million in the same period last year. The 26% increase in earnings primarily resulted from improved volumes (\$3.3 million) in pharmaceutical products, and the favorable impact of the weaker dollar (\$1.1 million), partially offset by unfavorable manufacturing costs (\$0.9 million).

Performance Chemicals, Fine Chemicals and Industrial

Sales in the third quarter of 2002 were \$70.5 million compared with \$61.5 million in the third quarter of 2001. The 15% increase in sales was primarily attributable to the biocides business (\$7.9 million), which was acquired on December 31, 2001. The increased sales also reflected higher Performance Chemicals and Industrial volumes (totaling \$5.5 million) in the industrial specialty, agriculture and specialty coatings markets, in addition to the favorable impact of the weaker U.S. dollar in Europe (\$1.8 million). These sales increases were partially offset by lower pricing in the Industrial business (\$3.9 million). In the Fine Chemicals business, the lack of sales to Polaroid more than offset increased sales volumes of bulk pharmaceuticals and pharmaceutical intermediates.

Operating income for the Performance Chemicals, Fine Chemicals and Industrial segment was \$3.0 million in the third quarter of 2002 compared with \$8.4 million for the third quarter of 2001. The reduction in operating income was attributable to losses from the Fine Chemicals business due to unfavorable volumes and the loss of sales to Polaroid (totaling \$7.0 million). In addition, Industrial profits were lower due to the impact of unfavorable pricing (\$3.9 million) and unfavorable manufacturing costs (\$2.0 million). Partially offsetting these reductions in operating profits was \$3.9 million higher operating income in Performance Chemicals due to

higher volumes and favorable manufacturing efficiencies (totaling \$1.9 million) and also to the additional profit contribution from the biocides business.

Mineral Products

Sales for the Mineral Products segment for the third quarter of 2002 were \$24.6 million compared with \$23.8 million for the third quarter of 2001. The 3% increase was due equally to higher sales to Building Materials Corporation of America, an affiliate, and to higher third party sales. We are beginning to experience competitive pricing pressures in the Mineral Products business as a result of additional capacity coming on stream in the industry.

Operating income for the third quarter of 2002 was \$5.5 million compared with \$5.8 million for the third quarter of 2001, reflecting unfavorable manufacturing costs due to start-up costs associated with the Ione, California roofing granules plant acquired in April 2002.

RESULTS OF OPERATIONS - FIRST NINE MONTHS 2002 COMPARED WITH

FIRST NINE MONTHS 2001

For the first nine months of 2002, we recorded a net loss of \$115.8 million compared with net income of \$23.5 million in the first nine months of 2001. In accordance with the adoption of SFAS No. 142, we completed a transitional test for impairment of goodwill, and, accordingly, recorded a \$155.4 million charge, effective January 1, 2002, for the cumulative effect of a change in accounting principle. The write-off represents the goodwill associated with our Performance Chemicals, Fine Chemicals and Industrial business segment and was based upon our estimate of fair value for these businesses, considering expected future cash flows and profitability.

First nine months 2002 results also include a \$5.5 million pre-tax gain from the sale of the FineTech business, \$6.8 million of pre-tax gains from contract settlements and an after-tax extraordinary charge of \$4.7 million on the early retirement of debt. First nine months 2001 results included \$12.0 million of goodwill amortization, prior to the adoption of SFAS No. 142, and an after-tax charge of \$0.4 million for the cumulative effect of adopting SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." Excluding such charges and nonrecurring gains discussed above, adjusted "Income before extraordinary item and cumulative effect of accounting change" for the first nine months of 2002 was \$36.2 million compared with \$35.9 million for the first nine months of 2001. On a comparable basis, the higher results for the first nine months of 2002 were attributable to \$6.6 million higher investment income and \$3.5 million lower other expense, net, partially offset by \$5.7 million lower adjusted operating income (excluding the nonrecurring gains) and \$1.8 million higher interest expense.

Net sales for the first nine months of 2002 were \$642.2 million compared with \$595.1 million for the same period in 2001. The 8% increase in sales in the first nine months of 2002 resulted primarily from the contribution to sales from the biocides business (\$25.6

million), which was acquired on December 31, 2001, and by higher unit volumes in the Pharmaceutical, Mineral Products, Personal Care and Industrial businesses (totaling \$35.6 million). The weaker U.S. dollar in Europe also had a favorable impact (\$5.2 million) on net sales. Partially offsetting these increases was lower pricing in the Industrial, Fine Chemicals and Personal Care businesses (totaling \$19.2 million).

Gross margins for the first nine months of 2002 were 35.2% compared with 37.7% in the first nine months of 2001. The decline in margins resulted primarily from a reduction in the Fine Chemicals business due to the Polaroid bankruptcy, unfavorable manufacturing costs, and the lower pricing in the Industrial, Fine Chemicals and Personal Care businesses.

Operating income for the first nine months of 2002 was \$111.0 million compared with \$92.5 million for the first nine months of 2001. Excluding the \$12.2 million of nonrecurring pre-tax gains on the sale of the FineTech business and the settlements of contracts in the first nine months of 2002 and \$12.0 million of goodwill amortization in the first nine months of 2001, adjusted operating income was \$98.8 million for the first nine months of 2002 compared with \$104.5 million for the first nine months of 2001. On a comparable basis, the \$5.7 million decrease in operating income in the first nine months of 2002 was primarily attributable to lower results in the Fine Chemicals, Industrial and Personal Care businesses (totaling \$19.7 million). Partially offsetting these lower results were improved operating profits in the Mineral Products and Pharmaceutical businesses (totaling \$10.2 million) and the contribution to income from the biocides business. Selling, general and administrative expenses increased 5% in the first nine months of 2002 to \$126.6 million from \$120.1 million in the same period last year, primarily due to the biocides acquisition and higher selling and distribution costs, but those expenses as a percentage of sales were 19.7% compared with 20.2% last year.

Interest expense for the first nine months of 2002 was \$64.6 million versus \$65.8 million for the same period last year. The increase was due to higher average interest rates, partially offset by lower average borrowings. Investment income for the first nine months of 2002 was \$26.7 million compared with \$20.2 million in the same period last year. Investment income for the first nine months of 2002 reflects a \$39.0 million impairment charge related to an available-for-sale equity security held in our investment portfolio. Other expense, net, for the first nine months of 2002 was \$6.6 million compared with other expense, net, of \$10.1 million in last year's period, with the lower expense due to the impact of a weaker U.S. dollar in Europe and Asia and a \$1.4 million higher provision for environmental liability in last year's first nine months.

Business Segment Review

A discussion of operating results for each of our business segments follows. We operate our Specialty Chemicals business through three reportable business segments, in addition to the Mineral Products segment. Each business segment was favorably

impacted in the first nine months of 2002 by the absence of goodwill amortization. The business segment discussion that follows excludes the impact of goodwill amortization on nine months 2001 results. Goodwill amortization in the first nine months of 2001 by business segment was as follows:

	(Millions)
Personal Care	\$3.6
Pharmaceutical, Food and Beverage	3.1
Performance Chemicals, Fine Chemicals and Industrial	3.1
Mineral Products	2.3

Personal Care

Sales in the first nine months of 2002 were \$156.2 million compared with \$150.6 million in the same period last year, while operating income for the first nine months of 2002 decreased to \$28.1 million from \$30.7 million in the same period last year. The 4% increase in sales resulted from higher unit volumes in both hair care and skin care products (\$7.3 million), mainly in North America and Europe, and also as a result of the favorable impact of the weaker U.S. dollar in Europe (\$1.3 million). The lower operating income resulted primarily from unfavorable manufacturing costs and pricing (\$7.0 million), partially offset by the impact of the favorable volumes (\$3.5 million) and the favorable impact of the weaker U.S. dollar (\$0.9 million).

Pharmaceutical, Food and Beverage

Sales for the Pharmaceutical, Food and Beverage segment were \$181.0 million for the first nine months of 2002, a 7% increase compared with \$169.6 million for the first nine months of 2001. Sales for the Pharmaceutical business increased by 11.5% in the first nine months of 2002, reflecting higher unit volumes (\$11.1 million), primarily in the excipients and oral care markets in Europe and North America. Sales for the Beverage and alginates food businesses decreased by 2% and 4%, respectively, due to lower unit volumes and pricing (totaling \$1.7 million), primarily in Europe and Latin America.

Operating income for the Pharmaceutical, Food and Beverage segment was \$43.4 million in the first nine months of 2002 compared with \$42.4 million in the same period last year. Operating income for the Pharmaceutical business increased 8% in the first nine months of 2002 compared with the same period in 2001. The improvement reflected the impact of the higher unit volumes (\$5.0 million) and the favorable impact of the weaker U.S. dollar (\$0.9 million), partially offset by unfavorable manufacturing costs (\$0.9 million). Operating results for the Beverage and alginates food businesses decreased by a total of \$2.7 million in the first nine months of 2002 due primarily to unfavorable manufacturing costs (\$1.5 million) and, to a lesser extent, to the lower volumes and pricing.

Performance Chemicals, Fine Chemicals and Industrial

Sales in the first nine months of 2002 were \$230.8 million compared with \$211.1 million in the first nine months of 2001. The 9% higher sales were attributable to the biocides business (\$25.6 million), which was acquired on December 31, 2001. Sales for the Performance Chemicals, Fine Chemicals and Industrial businesses, excluding biocides, decreased by a total of \$5.9 million (3%) due to lower pricing in Industrial and Fine Chemicals (totaling \$16.2 million). Partially offsetting these sales declines were higher Industrial volumes (\$8.7 million) and the favorable impact of the weaker U.S. dollar in Europe (\$2.5 million). Market selling prices of butanediol decreased in the first nine months of 2002 compared with average 2001 levels due to weakening demand and in anticipation of new capacity coming on stream in Europe. Sales for the Fine Chemicals business were unfavorably impacted due to the loss of Polaroid sales as a result of Polaroid's bankruptcy.

Operating income for the Performance Chemicals, Fine Chemicals and Industrial segment was \$20.8 million in the first nine months of 2002 compared with \$20.0 million for the first nine months of 2001. Excluding the \$5.5 million gain on the sale of the FineTech business and the \$6.8 million of gains on contract settlements, operating income for the first nine months of 2002 was \$8.5 million. The decline in operating profits was primarily attributable to losses in the Fine Chemicals business due to the loss of Polaroid sales and unfavorable pricing (\$3.1 million). Operating profits for the Industrial business were 56% lower for the first nine months of 2002 due to the impact of unfavorable pricing (\$13.0 million). Partially offsetting these unfavorable factors were favorable manufacturing efficiencies (\$4.4 million) due to consolidation of our butanediol production at our Marl, Germany facility, together with lower methanol and natural gas prices. The lower operating profits from the Fine Chemicals and Industrial businesses were partially offset by \$5.7 million higher operating income in Performance Chemicals, primarily reflecting the profit contribution from the biocides business, and also due to favorable manufacturing efficiencies and volumes (totaling \$2.2 million).

Mineral Products

Sales for the Mineral Products segment for the first nine months of 2002 were \$74.3 million compared with \$63.8 million for the first nine months of 2001. The \$10.5 million (16%) increase reflected \$7.4 million (15%) higher sales to Building Materials Corporation of America, an affiliate, and \$3.1 million (23%) higher third party sales. The increased sales reflected higher unit volumes (\$8.6 million) resulting from an increased market demand for roofing granules. We are beginning to experience competitive pricing pressures in the Mineral Products business as a result of additional capacity coming on stream in the industry.

Operating income for the first nine months of 2002 was \$18.4 million, a 72% increase compared with \$10.7 million for the same period in 2001, reflecting favorable manufacturing efficiencies and

lower natural gas costs (\$3.9 million), as well as the impact of the higher volumes.

LIQUIDITY AND FINANCIAL CONDITION

During the first nine months of 2002, our net cash outflow before financing activities was \$6.0 million, reflecting \$17.0 million of cash used in operations, the reinvestment of \$42.6 million for capital programs and the acquisition of a Mineral Products manufacturing facility, net cash proceeds of \$27.3 million from the sale of the FineTech business and \$26.3 million of cash generated from net sales of available-for-sale securities and other short-term investments.

Cash used in operations in the first nine months of 2002 included a \$153.4 million net cash outflow related to net purchases of trading securities. Excluding this cash outflow, cash provided from operations totaled \$136.4 million. Cash generated from a decrease in working capital items totaled \$26.6 million during the first nine months of 2002, reflecting a \$27.0 million net increase in payables and accrued liabilities and a \$13.8 million decrease in inventories, partially offset by a \$12.8 million increase in receivables. The higher payables reflect a \$16.7 million payable for investments purchased but not settled as of the end of the third quarter, and the reduced inventories resulted from an inventory reduction program. The higher receivables resulted from \$16.3 million higher sales in the third quarter of 2002 versus the fourth quarter of 2001.

Net cash used in financing activities during the first nine months of 2002 totaled \$7.8 million, primarily reflecting an \$85.3 million decrease in borrowings under our bank revolving credit facility and a \$4.6 million call premium on the redemption of debt, offset by an \$89.0 million increase in short-term borrowings. On January 14, 2002, we redeemed the remaining \$307.9 million aggregate principal amount of our 9% Senior Notes due 2003, which we refer to as the "2003 Notes." The 2003 Notes were redeemed at a redemption price of 101.5% of the principal amount plus accrued and unpaid interest to the redemption date. The redemption was funded utilizing a restricted cash escrow account which had been established in 2001 in connection with the issuances of long-term debt. In addition, financing activities included a \$16.9 million distribution to ISP to pay for fees and expenses from the issuance in December 2001 of \$200.0 million principal amount of 10-5/8% Senior Secured Notes due 2009. This distribution was offset by an \$11.7 million capital contribution from ISP.

As a result of the foregoing factors, cash and cash equivalents decreased by \$13.1 million during the first nine months of 2002 to \$64.7 million, excluding \$461.2 million of trading and available-for-sale securities.

On July 8, 2002, ISP announced that its Board of Directors had received a letter from Samuel J. Heyman, ISP's Chairman of the Board,

proposing that the Board consider a going private transaction whereby holders of shares of ISP's common stock (other than those shares beneficially owned by Mr. Heyman) would receive \$10 in cash per share. Such shares total approximately 12.5 million shares, or approximately 19% of ISP's outstanding shares. ISP's Board of Directors formed a Special Committee of independent Directors to evaluate this proposal. On November 7, 2002, ISP announced that the Special Committee and Mr. Heyman reached agreement on such transaction whereby holders of shares of ISP's common stock (other than Mr. Heyman) would receive \$10.30 in cash per share. The agreement followed a determination by the Special Committee that the transaction consideration is fair to ISP's public shareholders. The total consideration for such shares of approximately \$130 million would be paid out of our available funds.

In December 2001, we entered into a letter agreement to sell our pharmaceutical fine chemicals business to Pharmaceutical Resources Incorporated, which we refer to as "PRI," including our Haifa, Israel-based FineTech, Ltd. business and our Columbus, Ohio manufacturing facility. In February 2002, we received a \$250,000 payment from PRI in consideration of extending the negotiations pursuant to the letter agreement. In March 2002, we announced that the sale would not be consummated due to the failure of PRI to proceed with the transaction in a timely manner. Under the terms of the letter agreement, we received a \$3.0 million break-up fee, which was recorded as income in the first quarter of 2002 (see Note 4 to Consolidated Financial Statements). Following negotiations with PRI, in April 2002, we sold the Haifa-based business to PRI for \$32 million. We recorded a second quarter pre-tax gain, after expenses, of \$5.5 million related to this sale.

In April 2002, we acquired the roofing granules manufacturing operations in Ione, California of Reed Minerals, a division of Harsco Corporation. In a related transaction, we also acquired the adjacent quarry operations and certain mining assets from Hanson Aggregates Mid-Pacific, Inc. The total purchase price of the acquisitions was \$11.4 million.

As part of our acquisition of our Freetown, Massachusetts plant in 1998, we entered into a multi-year agreement to supply the imaging dyes and polymers used by Polaroid in its instant film business. In October 2001, Polaroid filed for protection under Chapter 11 of the U.S. Bankruptcy Code. In the third quarter of 2002, the majority of Polaroid's assets were acquired by a new owner. As a result, we no longer have a long-term supply contract with Polaroid. These events have negatively impacted the sale of our fine chemicals products and reduced the utilization of our Freetown plant.

We have an operating lease for a sale-leaseback transaction related to the Freetown facility, which was entered into in 1998. The lease had an initial term of four years and, at our option, up to three one-year renewal periods. The lease provides for a substantial guaranteed payment by us at the end of each renewal period and includes purchase and return options at fair market values determined at the inception of the lease. We have the right to exercise a purchase option with respect to the leased facility, or the facility can be returned to the lessor and sold to a third party. We are obligated to pay a maximum guaranteed payment amount

upon the return of the facility, currently \$35.8 million, reduced by 50% of any proceeds from the subsequent sale of the facility in excess of \$5.2 million. Under generally accepted accounting principles, we cannot recognize this future obligation or recognize an impairment loss relative to the Freetown facility since, as an operating lease, the Freetown facility is not carried as a long-lived asset on our balance sheet. However, given the current utilization of the Freetown facility as a result of the Polaroid bankruptcy, if we should exercise the purchase option at the end of any future renewal period or at the termination of the lease in 2005, we would anticipate having to recognize a material impairment charge. However, we are working toward increasing the utilization of the Freetown plant and have transferred production of certain personal care products to this facility.

In August 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 143 establishes accounting and reporting standards for legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development and the normal operation of a long-lived asset. SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred. Upon initial recognition of such liability, an entity must capitalize the asset retirement cost by increasing the carrying amount of the related long-lived asset and subsequently depreciating the asset retirement cost over the useful life of the related asset. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002, although earlier application is encouraged. We are in the process of assessing the impact of this Statement on our financial statements.

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." SFAS No. 145 eliminates the requirement of SFAS No. 4 that gains and losses on the early extinguishments of debt be recorded as an extraordinary item unless such gains and losses meet the criteria of APB No. 30 for classification as extraordinary. The rescission of SFAS No. 4 is effective for fiscal years beginning after May 15, 2002, although early application is encouraged. We intend to adopt SFAS No. 145 effective January 1, 2003, which will result in our first quarter 2002 pre-tax loss of \$7.1 million on the early extinguishment of debt being reclassified to other expense, net.

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." SFAS No. 146 addresses financial accounting and reporting for costs associated with exit or disposal activities and supercedes Emerging Issues Task Force Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)." SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred, and concludes that an entity's commitment to an exit plan does not by itself create a present obligation that meets the definition of a liability. This Statement also establishes that fair value is the objective of initial measurement of the liability. SFAS No. 146 is effective for exit or disposal activities that are initiated after December 31, 2002, with early application encouraged. We are in the

process of assessing the impact of this Statement on our financial statements.

See Note 11 to Consolidated Financial Statements for information regarding contingencies.

Forward-looking Statements

This Quarterly Report on Form 10-Q contains both historical and forward-looking statements. All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements within the meaning of section 27A of the Securities Act of 1933 and section 21E of the Securities Exchange Act of 1934. These forward-looking statements are only predictions and generally can be identified by use of statements that include phrases such as "believe", "expect", "anticipate", "intend", "plan", "foresee" or other words or phrases of similar import. Similarly, statements that describe our objectives, plans or goals also are forward-looking statements. Our operations are subject to certain risks and uncertainties that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. The forward-looking statements included herein are made only as of the date of this Quarterly Report on Form 10-Q and we undertake no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances. No assurances can be given that projected results or events will be achieved.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Reference is made to Management's Discussion and Analysis of Financial Condition and Results of Operations in our Registration Statement on Form S-4, for a discussion of "Market-Sensitive Instruments and Risk Management." As of December 31, 2001, equity-related financial instruments employed by us to reduce market risk included long contracts valued at \$12.7 million and short contracts valued at \$7.2 million. At September 29, 2002, the value of long contracts was \$0.5 million and the value of short contracts was \$0.1 million. Such instruments are marked-to-market each month, with unrealized gains and losses included in the results of operations. The unrealized gain (loss) on equity-related long contracts at December 31, 2001 and September 29, 2002 was \$243,000 and \$(133,000), respectively, and the unrealized gain on equity-related short contracts was \$45,000 and \$109,000 at December 31, 2001 and September 29, 2002, respectively.

ITEM 4. CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chief Financial Officer are responsible for the design, maintenance and effectiveness of disclosure controls and procedures (as defined in the Rules 13a-14(c) and 15d-14(c) of the Securities Exchange Act of 1934).

The effectiveness of the disclosure controls and procedures have been evaluated by the Chief Executive Officer and Chief Financial Officer within 90 days of the filing date of this report. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures are adequate and effective.

There have been no significant changes in internal controls or in other factors that could significantly affect these internal controls subsequent to the date of the evaluation in connection with the preparation of this Quarterly Report on Form 10-Q.

PART II

OTHER INFORMATION

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits:

Exhibit Number

99.1 Certification of CEO and CFO pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(b) Reports on Form 8-K filed during the current quarter:

No reports on Form 8-K were filed during the three-month period ended September 29, 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

INTERNATIONAL SPECIALTY HOLDINGS INC.

CERTIFICATION

I, Sunil Kumar, certify that:

1. I have reviewed this quarterly report on Form 10-Q of International Specialty Holdings Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officer and I have indicated in this quarterly report whether or not there were significant changes in internal

controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

**CERTIFICATION OF CEO AND CFO PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO**

SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report on Form 10-Q of International Specialty Holdings Inc. (the "Company") for the quarterly period ended September 29, 2002 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), Sunil Kumar, as President and Chief Executive Officer of the Company, and Neal E. Murphy, as Senior Vice President and Chief Financial Officer of the Company, each hereby certifies, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of his knowledge and belief:

(1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

/s/ Sunil Kumar
